

Mini E

EN Grinder-doser with flat grinding blades

- Stepless micrometrical grinding adjustment
- Electronic device to select the dose
- On demand grinding
- Every dose of coffee is fresh
- Single and double dose with independent adjustment
- Electronic touch pad

Super Jolly E

EN Grinder-doser with flat grinding blades

- Suitable for bars with medium consumption needs
- Stepless micrometrical grinding adjustment
- On demand grinding
- Electronic dose adjustment
- Single and double dose with independent adjustment
- Digital display with shot counter

Major E

EN Grinder-doser with flat grinding blades

- Suitable for bars with medium-high consumption needs
- Stepless micrometrical grinding adjustment
- On demand grinding
- Electronic dose adjustment
- Single and double dose with independent adjustment
- Digital display with shot counter
- Ventilation device with electronic control to keep the motor cool

Robur E

EN Grinder-doser with conical grinding blades

- Conical grinding blades and slow speed rotation, suitable for bars with high consumption needs and recommended to grind delicate blends
- Stepless micrometrical grinding adjustment
- On demand grinding
- Electronic dose adjustment
- Single and double dose with independent adjustment
- Digital display with shot counter
- Ventilation device with electronic control to keep the motor cool

Astoria

Think espresso.
